## Greetings!

Thank you to the Standard Examiner and our many community based youth service organizations for their partnership in preparing this Summer Kids Catalog.

Summer is a special time of year for children. It is a time to explore new things, a time for the hours to pass more slowly, to be outside and enjoy nature. If children have meaningful summer activities that feed their love of learning, give them new experiences, and foster healthy relationships - they will come back in the fall ready for a new school year.

Another benefit of summer is that each day your child has more light to read by!

We hope these exciting learning experiences will lift the lives of our youth and help prepare them for a successful tomorrow.

In partnership with Weber State University, the Y is offering STEM and Specialty Summer Day Camps to youth ages 5-15. Topics include LEGO Robotics, Girls in STEM, Coding, Architecture, Video Production, Earth Science, Rocketry and more! These camps will provide lots of opportunities for your camper to experiment, engineer, and explore all while receiving a well-rounded camp experience focused on achievement, relationship, and belonging. The Y brings utilizes specialized instructors to provide unique, hands-on activities and demonstrations, offering your camper more in-depth exposure to some of their greatest interests. Visit our website at [ymcautah.org/summerdaycamps](http://ymcautah.org/summerdaycamps) for more information about our themes and our Financial Assistance program.

## FULL DAY CAMPS/YOUTH & TEENS

### CAMPAMENTOS DE DÍA COMPLETO/JÓVENES Y ADOLESCENTES

#### Mad Science of Greater Salt Lake

Greatersaltlake.madscience.org  
Info@madsciencegslc.com  
801-292-8646

The cost ranges from \$150 to \$180 for a 5 day, 3 hours day camp.

Locations: Eccles Community Center, Clearfield Aquatic Center, South Davis Recreation Center

For children 5 to 11 years of age. Mad Science camps offer a daily combination of in-class discovery and exploration, outdoor games and physical activities, and hands-on applications of the scientific principles presented. Your child will be able to touch, see, hear, and smell what science is really all about. We use simple, real world science techniques that allow even the youngest of campers to enjoy our learning environment. Campers create, build, and assemble a variety of take-home projects while exploring how science affects the world around us. Children have so much fun that they forget they're learning!

#### Girl Scouts of Utah

(801) 265-8472 [www.gsutah.org](http://www.gsutah.org)  
Camping is a great way for girls to develop outdoor skills like building a campfire, pitching a tent and canoeing across a lake. Add activities like horseback riding, rock climbing, archery and maybe even a backpacking

trip, and girls discover how great it can be to unplug and explore the world around them. Whether for two days or three weeks, the camp experiences give girls an opportunity to explore, grow, have fun and make memories under the guidance of committed, caring and trained adults.

You don't have to be a Girl Scout to attend. Camp is open to every girl, everywhere.

Ages: Girls 1st – 12th grade

Time: Various sessions from June 18 – August 11

Locations: Camp Cloud Rim (Park City) or Trefoil Ranch (Provo)

Cost: \$170 – \$635 (based on camp choice)

#### Ogden's George S. Eccles Dinosaur Park

1544 Park Blvd., Ogden UT  
801-393-3466

<https://www.dinosaurpark.org>

info@dinosaurpark.org

jeff@dinosaurpark.org

#### Summer Lecture Series

All ages welcome

Dates: each Saturday of the summer (June 2-August 25), sessions at 1:00 and 3:00, STEM experiments at 12:30 and 2:30.

Cost: included with regular admission (adults \$7, students or seniors 65+ \$6, children 2-12 \$5, 2& under free).

Brief Description: We call them lectures, but these interactive presentations involve so much more.

Ask questions, watch demonstrations, and get up close and personal with rare fossils. Before each session, join in on an experiment related to the topic of the week. Each Saturday we cover a different topic in paleontology. For example, monthly Creature Features go in depth on one prehistoric animal, like Stegosaurus, Torvosaurus, and the oddly-named whale Basilosaurus. With Jurassic World: Fallen Kingdom coming out this summer, we'll cover the science behind the cinema. Each presentation lasts about 30-45 minutes, though visitors are welcome to ask questions afterward. Visit [dinosaurpark.org](http://dinosaurpark.org) for more information and a schedule of topics.

#### Junior Science Expedition

Age: 3-6

Dates: June 13, July 11, August 8, 2017. 9:00 am-11:00 am

Cost: \$15/child, parents welcome

Summertime should be epic. Dinosaurs are about as epic as it gets, and summer day camps at the Dinosaur Park help kids experience prehistoric life like never before. We've packed each expedition with fun activities geared for preschool-aged children. Projects include lab activities like fossil casting. Crafts will teach kids how scientists restore the look of ancient life. And bring questions – our paleontologists love to answer them during the special guided tour of the park. Each monthly session will feature different themes, so kids can enjoy one camp or engage with paleontology all summer long.

## CAMPAMENTOS DE DÍA COMPLETO/JÓVENES Y ADOLESCENTES

### Elementary Science Expedition

Age: 7-11

Dates: June 20, July 18, August 15, 2017. 9:00 am-1:00 am

Cost: \$25 per child

Brief Description: Ever wonder how we know what we know about dinosaurs? During Elementary Science Expeditions at the Dinosaur Park, kids will get to experience each step of the process scientists use to reconstruct ancient worlds. We will dig in a simulated dinosaur quarry operation. Learning science methods will help kids build their find. We will even conduct experiments using some of the same tools and techniques available to professional scientists. Each monthly session will feature a different prehistoric animal, so kids can enjoy one camp or engage with paleontology all summer long.

### Volunteens

Ages 13-17

June 5th – August 9th

9am -12pm (every Tuesday and Thursday)

\$45 for the summer (includes t-shirt)

Serve, learn and have fun with a unique program designed to get teens into the field this summer. Participate in citizen science, habitat restoration, and other projects, all while making friends and giving back to the community. Guest speakers and leadership opportunities round out the summer. Teens work on and off-site with our staff, in a friendly, supervised environment.

### Birds of a Feather

Ages 8-10

June 5th, 8:30am -3:30pm

\$45 per camper

\$6 per camp T-shirt

Come learn about our avian neighbors in this camp full of live animal demonstrations, bird watching and scientific inquiry. Find out how birds communicate, how they are adapted to different habitats and explore the science of flight.

### Toddler Tracks: Trail Tales

Ages 2-3 (Guardians must accompany children)

June 6th, 9am-11am

\$15 (includes parent/child pair)

\$6 for a camp T-shirt

Cozy corners out-of-doors are the perfect places for sharing stories! Come walk with us on our trails as we make story stops at our favorite

natural hidden places! Strollers or wagons are welcome for this program.

### Under the Microscope

Ages 9-11

June 7th, 8:30am -3:30pm

\$45 per camper

\$6 per camp T-shirt

There's an intricate and important world right under our feet and below the surface of the water. Come learn how to use different microscopes and tools to view this tiny world, as we get up close and personal with soil, plant cells and macroinvertebrates.

## Hill Aerospace Museum STEM Summer Passport Activities

The Hill Aerospace Museum STEM Summer Passport Program will take place in the Museum's General Marc C. Reynolds Aerospace Center for Education. Each week during the summer, our Education staff will be offering classes in **Astronomy, Chemistry, Electricity, Forces of Flight, Helicopters, It's All in the Tilt, Magnetics, Mission to Mars, Simple Machines, Rockets, and Weather**. Classes will be held Tuesday through Friday with two classes each day. The classes will be open to kids at least eight years of age on a first come first served basis. Parents are welcome to attend the classes with the kids. Each student will be issued one Museum STEM Passport. A subject page in the Passport will be stamped after each class session. When the kids get all of the pages stamped by attending all classes, they will receive a special pin.
